Trip Introduction

Honey Hunting Trip is the genuine and continuous action of indigenous Gurung and Magar people group in Bhujung and Pargaon for nectar chasing from which they can take care of their concern of meat and potatoes.

Nectar has the same number of various flavors and assortments in shading as wine. This familial activity of nectar chasing still persistent in numerous remote towns of Nepal while offering high the travel industry potential.

The entire of Annapurna district, Dhading and Jharlang cross Ganesh Himal, Arun valley in Makalu and other trekking zones have turned out to be mainstream for nectar chasing, another vacationer movement however in Nepal aside from Bhujung zone in Annapurna locale, exceptional bundle of nectar chasing on spot while going along the trekking courses.

The Gurung men can import this nectar to different pieces of Nepal for multiple times the cost of the other nectar. Nectar chasing means hitted and reproduced from honey bee. Nectar Hunting visit in Nepal offers nectar chasing in the precarious honey bee bluffs to encounter the conventional and culture of the nearby individuals. Everyone is excited to watch nectar seekers at work.

Honey hunting trips can be arranged in different parts of Nepal however it is only carried out at specific season of year based on the reading of local astrological calendar. Honey hunting usually takes place in the month of October/November and May/June. It is necessary for you to book in advance to participate in honey hunting trips.
