Kailash Overland Tour at 6,740 meters, arranged toward the north of the Himalayan boundary, completely inside Tibet. In old writings, it is alluded as the focal point of the world. Mt. Kailash has four extraordinary faces, which

guarantees a standout amongst the best mountain view. In any case, aside from the picturesque excellence, it is likewise the profound place for four conspicuous religions including Hinduism, Buddhism, Jainism and a pre-buddhist animistic religion-Bonpo.

Hindus see the crest as Shiva's representative 'Lingam' and venerate Mt **Kailash Overland Tour** which is the Sanskrit name for the mountain. Bonpos trust the holy mountain to be where the author of the Bon religion landed when he plummeted from the sky. Tibetan Buddhists trust Kang Rinpoche, which means Precious Snow Mountain, is a characteristic maṇḍala speaking to the Buddhist cosmology on the earth and the Jains trust this is where their religion's author was profoundly stirred. Consequently, consistently a large number of explorers rush to Mt. Kailash from huge separations to accomplish illumination and purify themselves from sins, overcoming brutal climate and conceivable crook assaults.

The primary fascination of the mountain is the journey circuit around the mountain. It ordinarily takes 3 days and should just be attempted by the solid and steady and fit. For more information Please [CONTACT US](#).
